

Hi Everyone!

I am Grazia, Grace for my friends.

Profile

Calm but determined personality.

I believe that working in heterogeneous groups is an opportunity for personal and professional growth. I like to deal with communication, from the design for publishing that was my first love, up to areas with higher technological content (web design, motion graphics, interaction design, creative coding). I'm interested in the entire design process from concept to final prototyping. I consider myself an empathic, passionate and if necessary very serious person.

Services

Visual, Motion, Interaction, Web Design.

Skills

Adobe Illustrator	———□
Adobe InDesign	———□
